3. ~~Notes show, probably a part of~~
 The following observations were made at Finow estate on 3 August 1955:

At 0730, three officers wearing black-bordered blue epaulets, one lieutenant, and 30 soldiers wearing black-bordered blue epaulets assembled for morning roll call in the foyer of the four-story dwelling house of Finow estate. Another officer reported to a captain who wore black-bordered blue epaulets. A sergeant, a soldier who wore black-bordered blue epaulets, and a sentry wearing black-bordered blue epaulets were also seen there. One soldier and the cook of the units were observed in the yard. It appeared as though the officers and soldiers observed were the **only occupants** of the estate, since no other officers or soldiers were seen during the morning. The total occupation of Finow estate was as follows: 1 captain who was commanding officer, four officers who were lieutenants and senior lieutenants, 34 NCOs and EM, all of the personnel wore black-bordered blue epaulets. Three trucks were parked at the shed. One truck with mounted searchlight, which had a diameter of about 1 meter, was parked behind the shed. One umbrella-type antenna was observed at the shed. No other radio installations were seen within the area of Finow estate. See Annex for detailed sketch.
